

Northern California Botanists

**A Cooperative Association of Federal, State, Academic, Consulting,
and Other Botanists in the Northern California Region**

Northern California Botanists is an organization with the purpose of increasing knowledge and communication among agency, consulting, academic, and other botanists about botanical issues concerning science, conservation, education, and professional development. Our primary objectives are to establish a communication forum via occasional meetings, a scholarship fund for students working on botanical problems in northern California, a job forum, and an annual symposium that focuses on the botany of northern California. We welcome all who wish to join.
