- **California Botanical Society**
- **California Department of Fish and Wildlife**
- **California Invasive Plant Council (Cal-IPC)**
- **California Native Grasslands Association (CNGA)**
- **California Native Plant Society (CNPS) – State Office**
- **California Native Plant Society (CNPS) – Dorothy King Young Chapter**
- **California Native Plant Society (CNPS) – Mount Lassen Chapter**
- **California Native Plant Society (CNPS) – North Coast Chapter**
- **California Native Plant Society (CNPS) – Sacramento Valley Chapter**
- **California Native Plant Society (CNPS) – Shasta Chapter**
- **Carol Witham**
- **ECORP**
- **Friends of the Ahart Herbarium**
- **Halkard Mackey**
- **Hedgerow Farms**
- **Heritage Growers / River Partners**
- **Julie Kierstead**
- **Kleinfelder**
- **Lawrence Janeway**
- **Linnea Hanson**
- **Madrone Ecological Consulting**
- **Nomad Ecology**
- **Santa Barbara Botanic Garden**
- **Sierra Pacific Foundation**
- **Stephen Rae**
- **Stillwater Sciences**
- **Tom Parker**
- **WRA, Inc.**

THANK YOU TO ALL OF THE SYMPOSIUM SPONSORS!

Cover photo courtesy of Daria Snider. This is a view of Mount Shasta from the north, looking across the western juniper (*Juniperus occidentalis*) and sagebrush (*Artemisia tridentata*) steppe around Shasta Valley. Mount Shasta is one of the few mountains where glaciers and permanent snowfields haven't been rapidly shrinking as the planet's climate warms. 23 July 2022.
