

Elliott Environmental Consulting (EEC) is Hiring Field Botanists for the 2024 Field Season

We are looking for motivated individuals with:

- Strong field skills.
- Able to identify plants in Northern California.
- Able to use dichotomous keys.
- Strong navigational and GPS skills.
- Able to endure difficult and sometimes arduous conditions.
- Must enjoy field work!

Botrychium minganense

We Offer:

- Competitive salary with wage depending on experience and education.
- Schedule flexibility.
- The opportunity to perform terrific field work and develop botanical field survey skills.

Elliott Environmental Consulting will be performing landscape-scale botanical surveys on the Plumas National Forest in Northern California in 2024.

Elliott Environmental Consulting is a botanically-focused environmental consulting firm founded in 2007. It is owned and operated by Brian and Emily Elliott, University of Wyoming Botany Department Graduates. We provide a variety of environmental consulting services but focus primarily on vegetation monitoring and botanical survey for rare plants and weeds. More information regarding our company can be found at elliottconsultingusa.com.
